

SAFETY

Driver Behavior Monitoring

Assess driver performance by evaluating skills through penalty points for violations such as speeding, excessive acceleration, and harsh braking.

[Request a Demo](#)

Safety, Scoring & Risk Reduction

Combine telematics metrics with intelligent scoring algorithms to benchmark driver performance. Reward safe driving and identify risk patterns before accidents occur.

Reduced Fuel Waste

Curb aggressive acceleration and high-rev idling.

Lower Insurance Risk

Proven safety records lead to lower fleet premiums.

Speed Monitoring

Ensure absolute compliance with road speed limits. Our system triggers instant alerts for excessive speeding, allowing managers to intervene before costly fines or severe accidents occur.

Harsh Braking Detection

Pinpoint dangerous, aggressive braking patterns. Use hard data to proactively coach drivers, improve overall road safety, and significantly reduce wear and tear on brake pads and rotors.

Rapid Acceleration Tracking

Monitor jackrabbit starts and erratic acceleration. Eliminating this aggressive driving style is proven to substantially cut fuel waste and minimize stress on the vehicle drivetrain.

Idle Time Monitoring

Combat unnecessary fuel burn and emissions. Identify drivers who leave engines running during extended stops and enforce corporate anti-idling policies to drastically reduce overhead.

Safety Scoring

Automatically compile comprehensive telemetry data into a straightforward 0-100 safety score for each driver, giving you a clear, objective benchmark of fleet risk levels.

Driver Ranking

Foster a healthy culture of competition. Rank drivers on a dynamic leaderboard and introduce gamification to incentivize and reward your safest, most efficient operators.

Key Benefits

Dramatically reduce accident rates, liability claims, and insurance premiums

Improve fleet-wide fuel efficiency by coaching out aggressive driving habits

Enhance public brand reputation by ensuring your branded vehicles are driven safely

Extend the lifespan of your vehicles by minimizing harsh mechanical wear and tear

Create a transparent, accountable, and highly responsible corporate driving culture

Improve Driver Safety Today

Get real-time insights into driver performance and reduce fleet risk.
