FUEL MANAGEMENT

Fuel Monitoring

Monitor fuel usage for each vehicle in your fleet. Utilize fleet fuel tracking to lower expenses, decrease CO2 emissions, and encourage fuel-efficient practices!

Fuel Management Features

Gain absolute control over your fleet's fuel expenditure and consumption patterns.

Safeguard Fuel Against Theft

Implement fuel monitoring systems to identify irregularities and safeguard your assets.

Improve Driving Culture

Combine fuel monitoring with driver behavior analysis to identify fuel-wasting habits.

Enhance Fuel Efficiency

Immediate insights into fuel consumption trends. Detect inefficiencies and optimize usage.

Aerial Perspective

Track every ounce of filled or used fuel and understand how it impacts the budget.

Real-time Control

Track fuel consumption and current tank levels with just a few clicks.

Past Records

Consistently review fuel data and pinpoint areas for improvement.

Accuracy Throughout Projects

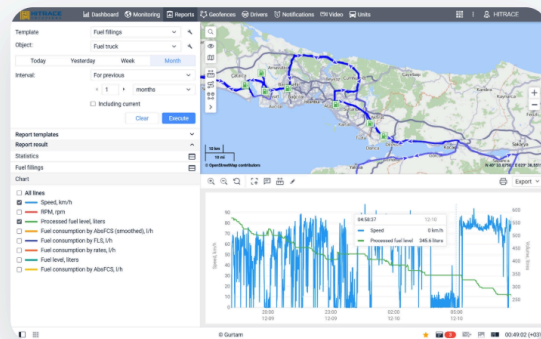

Receive precise data for different vehicles, regardless of landscape or project conditions.

ANALYTICS

Automated Fuel Reports & Drain Detection

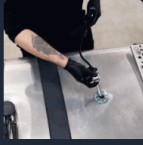

The fleet fuel monitoring system offers details on fuel refills and withdrawals, including exact date, time, location, starting and ending fuel levels, and volume.

- ✓ Instant alerts for sudden fuel drops (siphoning/theft)
- ✓ Accurate tank level readings under all operational conditions
- ✓ Exportable audit logs for finance and tax reporting

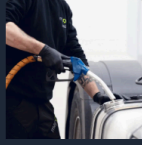

How Fuel Data Reaches You

Choose the right sensor setup for your vehicle models and operating environments.

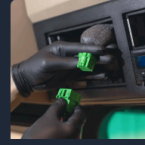

Fuel Level Sensor

Monitors the fuel level and its fluctuations in the tank. Interfaces with the GPS tracking device through a digital output.

Fuel Consumption Sensor

Monitors the amount of fuel flowing through a vehicle's fuel line. Widely used in rail, air, and maritime transportation.

CAN Bus Integration

Transmits live fuel level information from the vehicle's onboard computer to the satellite monitoring system. Simple to install and maintain.

Start Saving on Fuel Today

Our specialists will show you how fuel tracking can transform your fleet.
