Our Solutions

Comprehensive technology solutions tailored for your business needs

Fleet / Fuel Management

Fuel represents a significant cost for a fleet. A comprehensive solution is necessary to effectively track and manage fuel usage and the fleet's activities.

Learn More →

Telematics

Gain essential insights for effective fleet or asset management by obtaining precise, current information on the locations of vehicles, assets, and personnel.

Learn More →

IoT and Smart Homes

Advanced smart home security systems, featuring real-time monitoring, remote access, and automated alerts, ensuring your home and family are safe and secure.

Why Partner With Hitrace

Everything you need to scale your fleet operations

Perfect fit for any industry
The Hitrace fleet management software fits diverse projects, from real-time fleet tracking to full digitalization and business intelligence, delivering valuable insights for strategic growth.

Seamless API Integrations
Seamlessly transmit processed data to visualization tools and external systems through APIs. Build a tailored solution and integrate with ERP, BI, accounting, and more.

Hardware-Agnostic Solution
Hitrace integrates with most GPS device models — from small scooter trackers to complex devices with multiple inputs, CAN bus, and OBD support.

Technical Consulting
Partners benefit from technical support in five languages, project implementation assistance, expert-led training sessions, and certification opportunities.

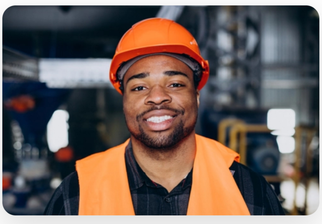

White-Labeling
Partners can use the fleet management platform under the Hitrace brand or opt for a customized, white-labeled solution with its own brand identity.

Hitrace Community
The largest network of telematics and IoT experts. A platform for knowledge exchange, technology sharing, and collaborative problem-solving.
